Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 09 June 2005.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Election/Restrictions

The examiner acknowledges the applicants previous election of Group I and also Species B, and notes that the applicant has submitted amended claims including number 22. Number 22 is readable on Species A, and therefore is Withdrawn. While any delay in prosecution is regrettable, upon further review and consideration a further restriction requirement is hereby made below. The previous restriction stands and claims 1,2 and 6-21 as they appear in the amendment of 6/9/05 are referred to below.

1. This application contains claims directed to the following patentably distinct species of the claimed invention:
 - a. Species A: Figure 3.
 - b. Species B: Figure 4.
 - c. Species C: Figure 5.
2. NOTE one of the above must be chosen and upon the choice of one of A-C, one of the following sub-species must also be chosen.
 - i. Sub-species 1: The force feel system is configured as an attitude-command-attitude-hold SAS. (like claim 11)
 - ii. Sub-species 2: The force feel system is configured as a rate damper SAS. (like claim 12)

Art Unit: 3643

3. NOTE one of the above must be chosen and upon the choice of one of 1 or 2 the following applies.

d. Upon election of one of sub-species 1-2, the applicant is further required to elect a single species of the following under 35 USC 121 for the purpose of examination. This additional requirement is to facilitate examining due to the broad range of autopilot error signal combinations that can be included as applicant's cockpit flight controller:

iii. Elect the autopilot error signal (from claim 18), (e.g., Altitude Error ONLY or the combination of Altitude and Climb rate ONLY).

NOTE: In regard to the single species election of species iii above the election should not be open-ended (i.e., comprising). An open-ended election will be considered non-responsive.

For example a proper reply would elect from claims 1,2 and 6-21, the Species A, sub-species 1 and the single species of the autopilot error signal of ALTITUDE ONLY (wherein the error signal is an altitude error signal).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Art Unit: 3643

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy D. Collins whose telephone number is 571-272-
